

# Standing Rocks Mountain Bike Trails

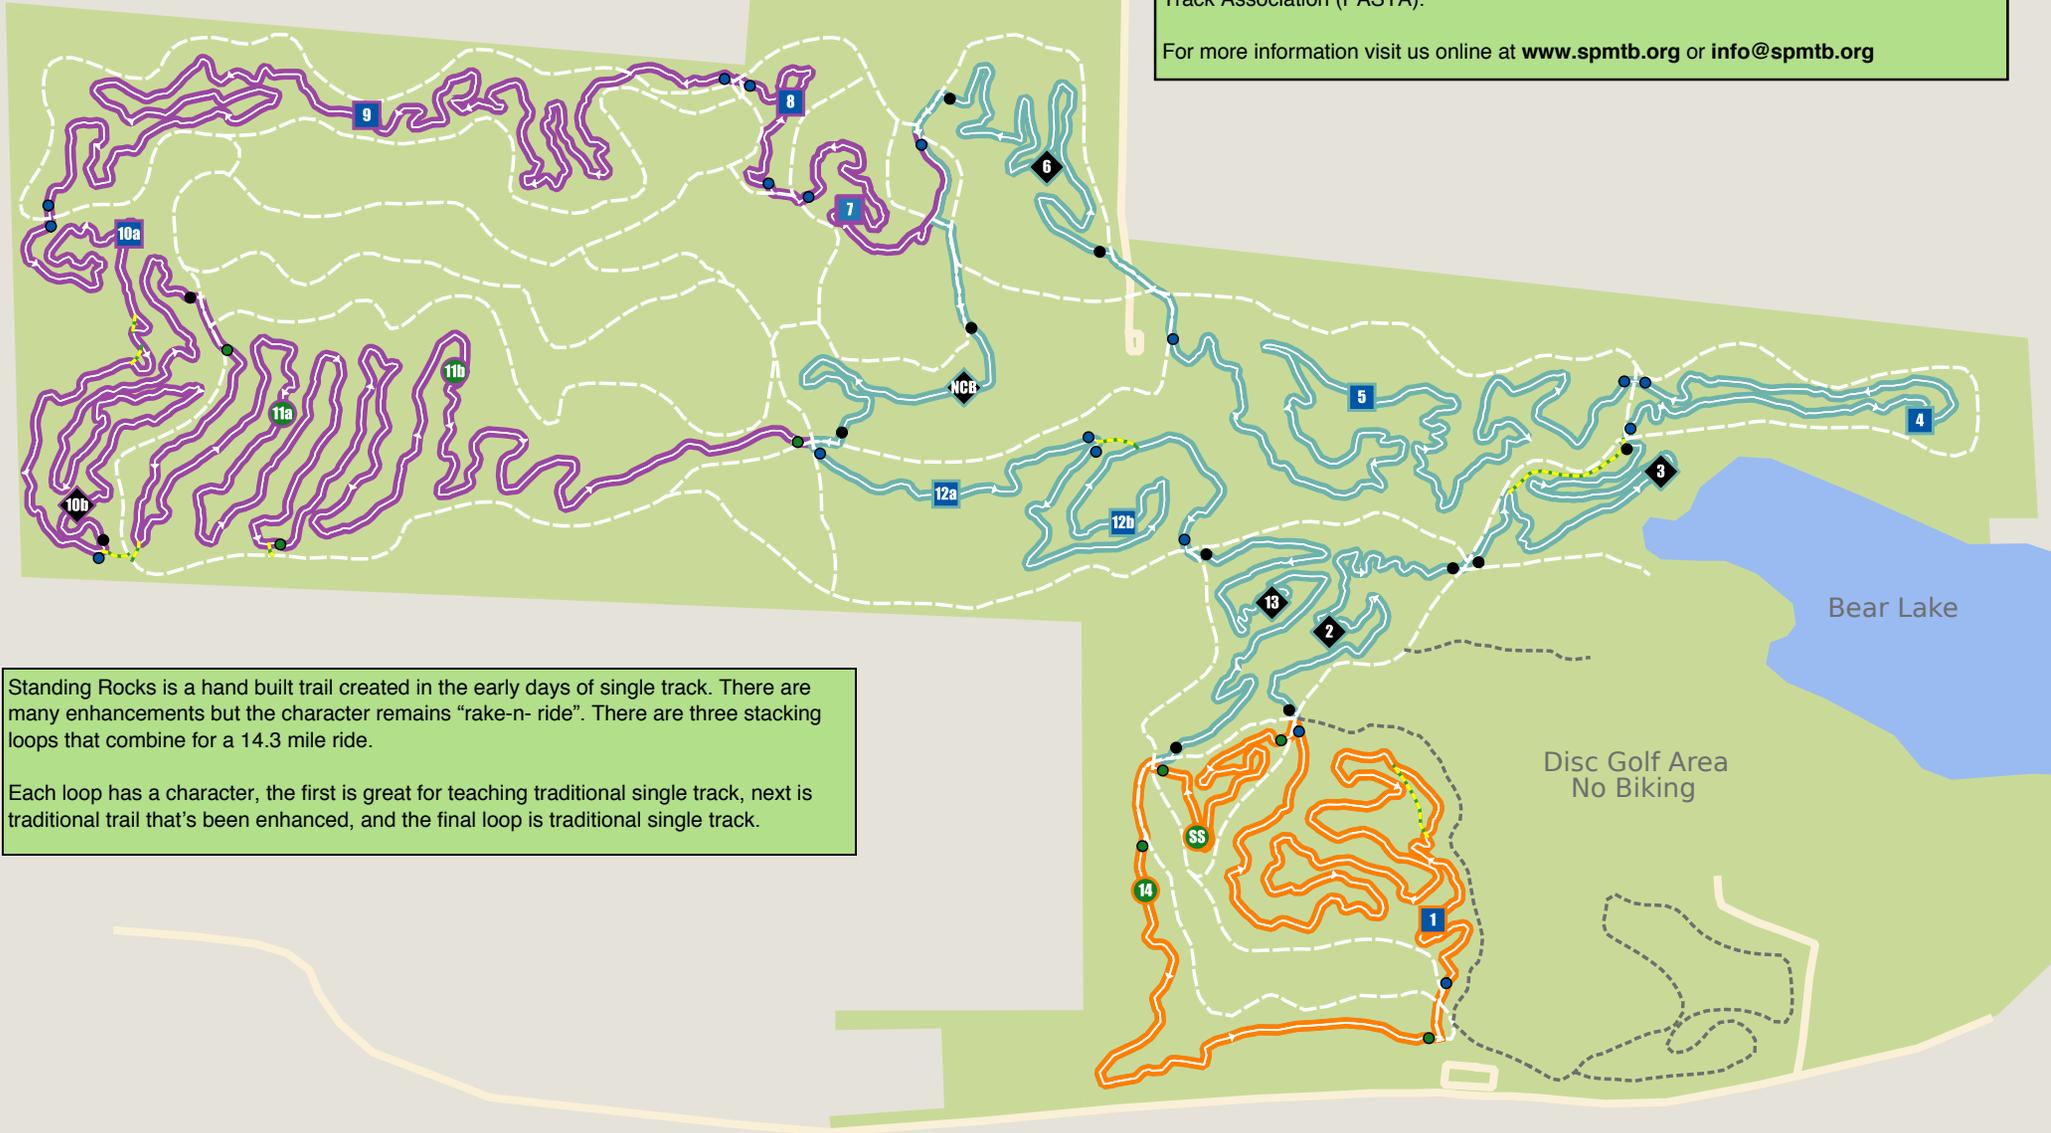

Trails closed when wet conditions exist

For trail conditions and information, call:  
 Standing Rocks Park @ 715-824-3949  
 Portage County Parks Dept @ 715-346-1433

Trail fee must be paid at self-registration box at trail head before biking. Trail pass must be carried when riding.  
 \$4 @ day / \$30 @ season / \$60 @ family  
 12 and under are free.

Trails have been built and are maintained by volunteers through out Central Wisconsin under an agreement with the Portage County Parks Dept. and the Point Area Single Track Association (PASTA).

For more information visit us online at [www.spmtb.org](http://www.spmtb.org) or [info@spmtb.org](mailto:info@spmtb.org)

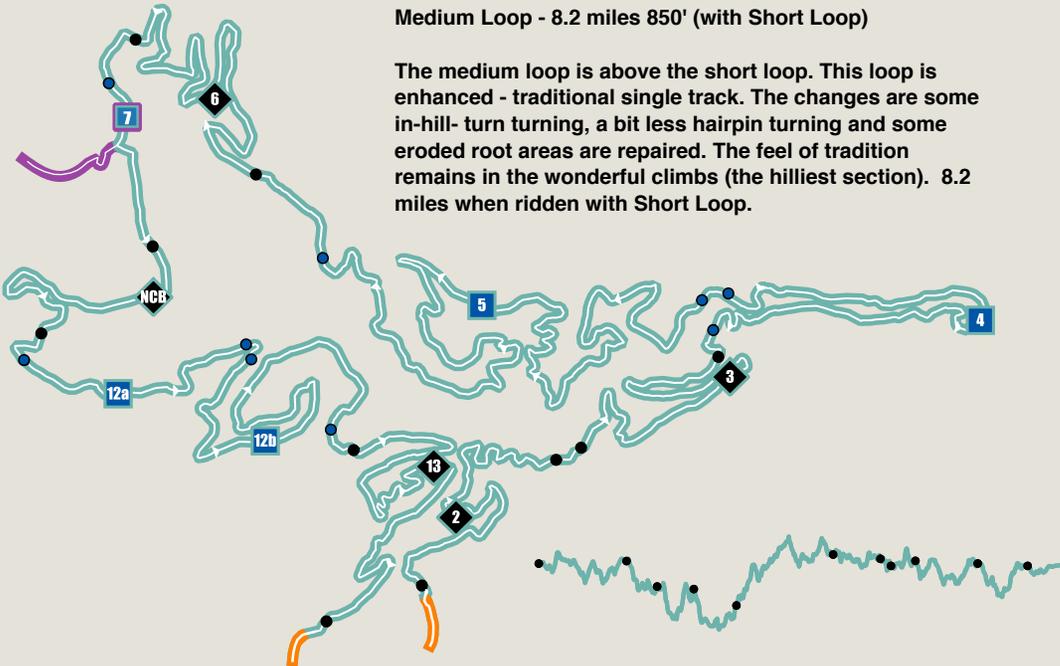

Standing Rocks is a hand built trail created in the early days of single track. There are many enhancements but the character remains "rake-n-ride". There are three stacking loops that combine for a 14.3 mile ride.

Each loop has a character, the first is great for teaching traditional single track, next is traditional trail that's been enhanced, and the final loop is traditional single track.

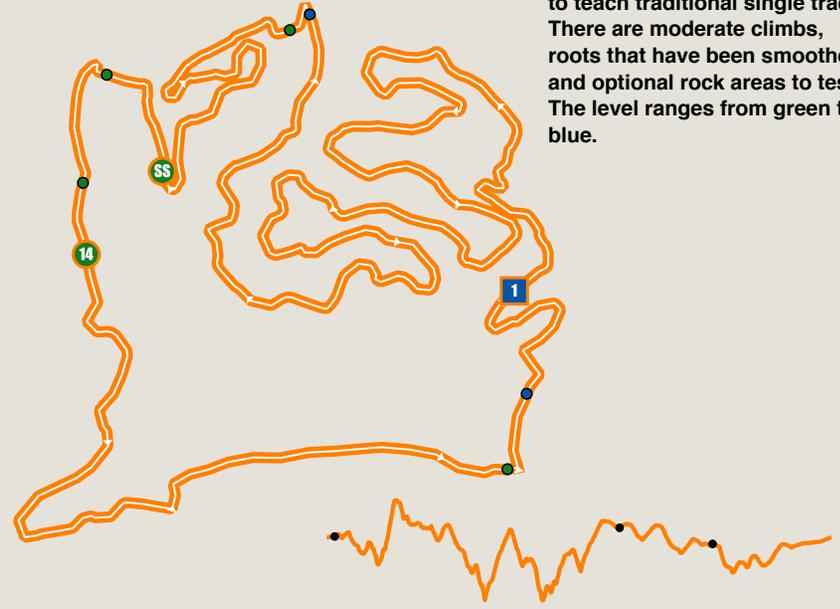

**Medium Loop - 8.2 miles 850' (with Short Loop)**

The medium loop is above the short loop. This loop is enhanced - traditional single track. The changes are some in-hill- turn turning, a bit less hairpin turning and some eroded root areas are repaired. The feel of tradition remains in the wonderful climbs (the hilliest section). 8.2 miles when ridden with Short Loop.

**Short Loop - 2.4 miles 162'**

The Short Loop begins just outside the lot. It's a nice loop to teach traditional single track. There are moderate climbs, roots that have been smoothed and optional rock areas to test. The level ranges from green to blue.

**Long Loop - 14.3 1296' (with Short & Medium Loops)**

The Long Loop is above the medium loop. This loop is traditional single track. It has tight turns and roots of past. This section is great for the traditional biker that likes old school rides!

Overall, Standing Rocks is single track for advanced and expert riders. The trails are traditional "rake-n-ride" on hilly terrain. The system snakes through the woods and maximizes acreage. The average speed is 6-8 miles per.

There is a modest trail fee listed on the website.

If you like challenging traditional trails please check Standing Rocks out. We are proud of our trails and appreciate your visit!!!
